

RAMAN SPECTROSCOPY OF IRON BASED SUPERCONDUCTORS

Monday, 23 July 2012 14:30 (12 minutes)

G. Blumberg, Rutgers, The State University of New Jersey, Piscataway, New Jersey 08854

I will review results of recent Raman studies of electronic and magnetic excitations in several families of

The work is done in collaboration with A. Ignatov and P. Lubik (Rutgers), N.-L. Wang (IOP, Beijing),
