

# Low Energy Electrodynamics in Solids 2012

## Thursday, 26 July 2012

### High Tc Cuprates I - Chardonnay Ballroom (10:45 - 12:30)

-Conveners: Harold Weinstock

time	[id] title	presenter
10:45	[116] Gap signatures in the IR and THz properties of the cuprate and iron-based superconductors	HOMES, Christopher
11:15	[142] Control of correlated electrons in metal-oxide superlattices	BERNHARD, Keimer
11:45	[141] Superconducting gap in the pnictides – theory and ARPES	CHUBUKOV, Andrey
12:15	[79] Log(1/T) flux-flow resistivity: a dynamical signature of vortices in cuprate superconductors	BROUN, David
