

Low Energy Electrodynamics in Solids 2012

Wednesday, 25 July 2012

Photoinduced Studies II - Chardonnay Ballroom (10:45 - 12:15)

-Conveners: Ricardo Lobo

time	[id] title	presenter
10:45	[129] Light-induced non-equilibrium superconductivity throughout the pseudogap phase of cuprates	CAVALLERI, Andrea
11:15	[127] Electronic matter wave rescattering at a nanoscale metal tip on attosecond time scales	HOMMELHOFF, Peter
11:45	[156] LIGHT INDUCED MELTDOWN OF QUASIPARTICLES IN HIGH TC SUPERCONDUCTORS	LANZARA, Alessandra
