Low Energy Electrodynamics in Solids 2012

Tuesday, 24 July 2012

Pnictides - Chardonnay Ballroom (14:00 - 15:45)

-Conveners: Laszlo Mihaly

time	[id] title	presenter
14:00	[113] Anisotropic in-plane optical conductivity in detwinned iron-pnictides	DEGIORGI, Leonardo
14:30	[124] Optical spectroscopy study on Fe-pnictides/chalcogenides	WANG, Nan-Lin
	[85] Optical conductivity of (Ba,K)Fe2As2: observation of a normal state pseudogap and the effect of impurity scattering in the superconducting order parameter	LOBO, Ricardo
	[87] Infrared pseudogap in the \$ab\$-plane and \$c\$-axis responses of the pnictide high-\$T_c\$ superconductors	MOON, Soonjae
