# Injury Stats FY22

## Key Takeaways from FY22

Work related travel  
COVID cases  
significantly impacted  
TRC/DART Rates

Office ergonomics and student  
injuries in labs increased

When *excluding* COVID  
cases TRC/DART Rates,  
TRC/DART cases and lost  
work days reduced

Lost work days cases were  
primarily associated with slips,  
trips and falls and material  
handling injuries

Facilities and Engineering  
Divisions saw reductions in  
their injuries

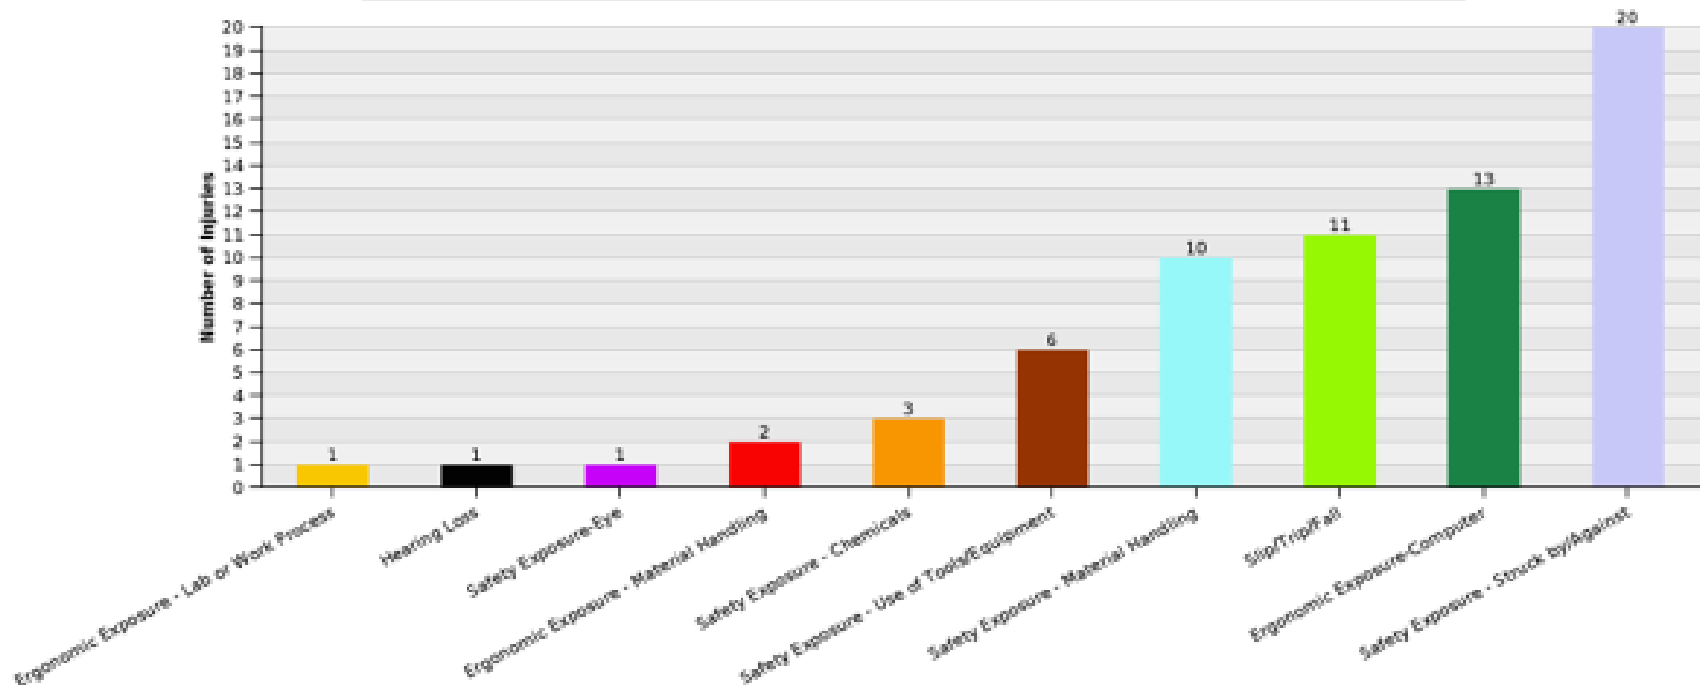

Subcontractors/Contractors had  
6 recordable injuries placed on  
*their* OSHA 300 Logs
