

Welcome to the Nuclear Science Division

Raúl Briceño

Joint Faculty Scientists,
Theory Program & UCB Physics Department

Research in QCD spectroscopy, lattice QCD, scattering theory, hadron structure, nuclear structure, and exploratory investigations into the use of quantum computing to study nuclear reactions that are inaccessible using classical computing

Welcome to the Nuclear Science Division

May Estrella

Senior HR Partner, Physical Sciences Area

Prior to joining Berkeley Lab, May served both national and international nonprofits, and private organizations. Most recently, as the HR Manager in PepsiCo's Hayward location, she supported 600 employees, advancing overall talent agendas, managing employee relations, labor relations, learning & development, and engagement.

Michael Gorin

Administrative Assistant, career

Supporting Applied Nuclear Physics program where he has served as a temp since October.

Welcome to the Nuclear Science Division

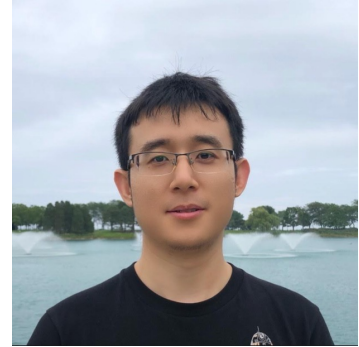

Celine Li
Sr. SEA, ANP

working on computer vision
methods and applications.

Lei Pan
Postdoc - ANP

working on the instrumentation
aspects of CZT imaging systems

Adan Esparza
Research Associate, ANP

supporting the development of
multi-sensor systems for radiation
detection and imaging, and
chemical sensing

Abby (Yun-Hsuan) Lee
UCB Undergraduate Student,
Nuclear Data
