

Welcome to the Nuclear Science Division

Ryan Heller (March 2023)

Research Scientist - ANP

Ryan joined us from Fermilab as a Research Scientist working in ANP where he is developing particle ID methods in CCDs for in-situ tritium detection, a medical imaging project, and the "gamma-Lidar" project in collaboration with ATAP.

Erich Leistenschneider (June 2023)

Staff Scientist – LE

Erich joined us from CERN as a Staff Scientist in the Heavy Element Group at the 88-Inch where he is going to joint the efforts on measuring masses and other physical and chemical properties of heavy elements with traps and lasers.

Nicolas Bakon

Graduate Student – 88-Inch

Nicolas joined us from IITI Normandie working in the 88-Inch Ion Source group on a new emittance scanner for VENUS that will improve out ML work.

Welcome to all NSD Summer Interns!

Jane McCall

- Started at the lab in 1992 and has been with the Nuclear Science Division since 2006
- Spent most of that time providing support to the Nuclear Theory program
- Before retiring Jane supported the Nuclear Theory and Neutrino Programs as well as the RIKEN iTHJEMS collaboration
- Worked in procurement, at the ALS, and EHS Waste Management

The deadline to **[submit your intent](#)** to participate in the **[2023 Berkeley Lab Research SLAM](#)** is Friday, June 16.

To be eligible, you must have received your Ph.D. from 2016 - 2022 and be an active employee through the live competition on September 21, 2023.
