

## High Precision Extraction of $A_{FB}$ at the LHC

*Friday, 1 June 2018 15:20 (20 minutes)*

We report on the extraction of the electroweak mixing angle from precision measurements of the forward-backward asymmetry ( $A_{FB}$ ) in dilepton events produced at the large hadron collider.

### E-mail

bodek@pas.rochester.edu

### Collaboration name

CMS (reporting also for ATLAS and LHCb)

### Funding source

DOE
