

CIPANP 2018 - Thirteenth Conference on the Intersections of Particle and Nuclear Physics

Thursday, May 31, 2018

Plenary 6: Dark Matter | Particle and Nuclear Astrophysics - East Foyer | Larkspur/Mesquite Rooms (10:10 AM - 12:30 PM)

-Conveners: Karl van Bibber

time	[id] title	presenter
10:10 AM	[89] Recent Results from Dark Matter Direct Detection Experiments	Prof. NI, Kaixuan
10:45 AM	[104] New Directions in the Search for Light and Ultralight Dark Matter	LIN, Tongyan
11:20 AM	[83] Coherent Scattering and the Flavor Physics and Detection of Supernova Neutrinos	Prof. SCHOLBERG, Kate
11:55 AM	[31] IceCube: Opening a New Window on the Universe from the South Pole	Prof. HALZEN, Francis
