

Welcome to the Nuclear Science Division

Antoine Armatol (November 2023)

Postdoc– Neutrinos

PhD 2023, U. Paris-Saclay & CEA
Working on CUPID cryogenic light
detector development

**Marilena Lykiardopoulou
(December 2023)**

Postdoc – Nuclear Structure

PhD 2023 UBC & TRIUMF
Working on a new FIONA focal plane
detector

Corrigan Appleton (January 2024)

Postdoc - Nuclear Structure

PhD 2023 University of Edinburgh
Initial work will focus on
spectroscopy of heavy nuclei

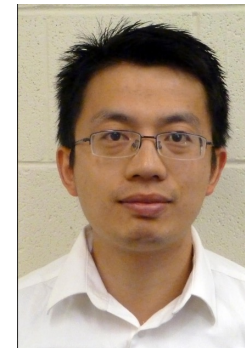

Welcome to the Nuclear Science Division

Zhenyu Ye (October 2023)

Divisional Fellow - RNC

joined us from UIC where he was a professor since 2012 working on STAR, CMS, and EIC. Will lead the sPHENIX heavy flavor physics analysis at RHIC, and lead the silicon vertex tracker (SVT) effort for EIC ePIC detector

Mathis Wiedeking (January 2024)

Staff Scientist – Nuclear Data

Joining us from iThemba LABS and U. Witwatersrand, South Africa, where he was a Dist. Professor Will take leading role in Nuclear Data program.

Carol Chien (January 2024)

Program Operations Analyst 3 – ANP & Division Office

Joining us from Earth and Environmental Sciences Area, where she managed among other program elements the Critical Infrastructure Program & Early Career Program founding member of LBNL's Asian Pacific Islander ERG, member of Mentoring Group
