

Notes on NSD meetings

Notes on NSD meetings

- Some arithmetic:
 - Less than 52/2 meetings a year => less than 4 talks per program
- I will propose a distribution of talk slots for programs/groups – then we negotiate...

Most encouraged speakers: Post Docs, junior researchers/staff – tell the division what you are working on, what’s happening, what’s exciting ...

- Aim at 20 min. talk (time for discussion within the hour)
- Pleasant rather informal setting to talk to your colleagues

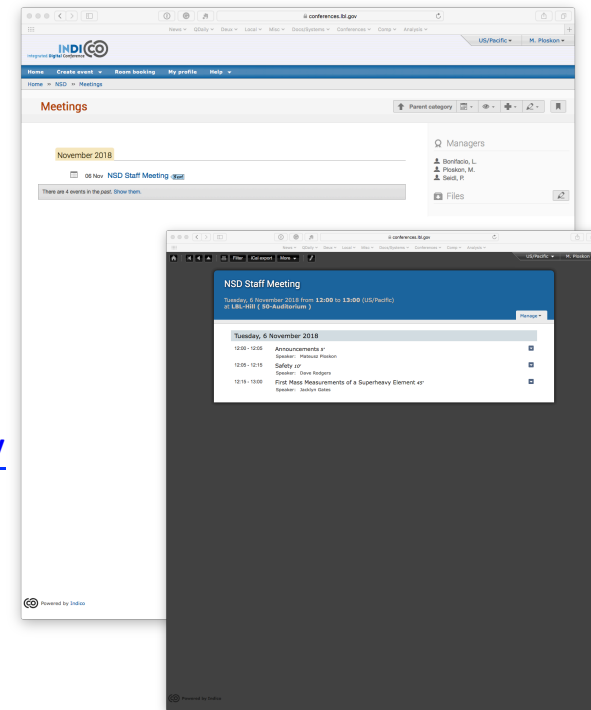

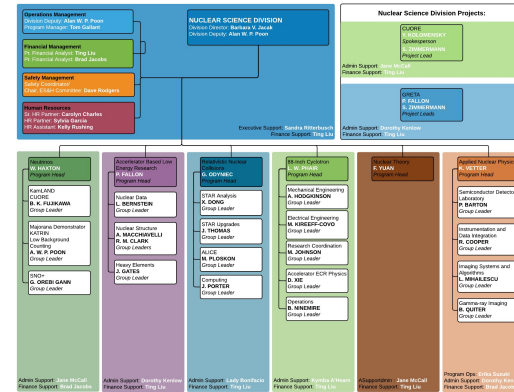

Meetings posted on indico:

<https://conferences.lbl.gov/category/73/>

We had in the past talks from outside the division (NERSC for example) – suggest what may be interesting... mploskon@lbl.gov

NSD staff meeting attendance: encourage juniors to come (students!)

Upcoming events – next 2 weeks
