

POETIC 2019

Monday 16 September 2019 - Saturday 21 September 2019

LBL-Hill

Scientific Programme

Monday, September 16-Wednesday, September 18: focus meetings on various topics related to the POETIC workshop.

Currently, we have the following topics: (1) proton spin at small- x ; (2) semi-inclusive processes at moderate transverse momentum, factorization and matching to collinear calculations.

Thursday, September 19-Saturday, September 21: the formal POETIC 2019 workshop.

In parallel, we have a TMD collaboration meeting during the first three days.
