

# Safety at LBL

# What We Know

There have been a number of incidents at the lab recently.

- DOE has suspended increases to staff on-site until lab gets upward trend under control.

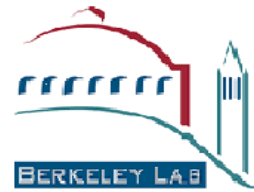

Employees must take a step back

- Review your work flow – How has it changed due to COVID controls?
- Are there new or elevated hazards because of COVID controls?
- Does the limited staff have the required training/qualifications?
- If changes were made, were they incorporated into WPC?

This is not the time to try to get more done with less people

- There may be available slots – Talk to Tom
- Can request approval for shift work
- Weekends are available

# Final Note

## White Boards

- Do you have one in your office?
- May be a problem with their hangers
- One fell, No one was hurt
- Email me location and I will check
