A vibrant graphic for National Postdoc Appreciation Week 2021. The background is a deep blue space filled with stars. In the top left is a large, textured orange-red planet. In the top right is a grey, cratered moon. In the bottom right is a large, blue and white Earth. Various scientific icons are scattered around: a DNA double helix, a molecular structure with green and blue spheres, a rocket ship with 'BERKELEY LAB' on its side, an atomic model, and several laboratory flasks and beakers. The text 'National Postdoc' is in a white, cursive font at the top, 'Appreciation Week 2021' is in the same font at the bottom, and 'SEPT 20-24' is in a smaller, yellow, sans-serif font in the center. A series of thin, golden lines radiate from the center, creating a sunburst effect.

A graphic for National Postdoc Appreciation Week 2021. The background is a dark blue space scene with a large orange planet in the top left, a grey moon in the top right, and a small blue and green planet in the bottom left. In the center, the text "National Postdoc" is written in a white, cursive font, and "Appreciation Week 2021" is written in a larger, white, cursive font below it. Between the two lines of text, "SEPT 20-24" is written in a smaller, yellow, sans-serif font. Radiating from the center are several thin, yellow lines. To the right of the central text are several small, colorful icons: a DNA double helix, a flask with a green liquid, a flask with a blue liquid, a flask with a yellow liquid, a flask with a red liquid, a flask with a purple liquid, a flask with a green liquid, a flask with a blue liquid, a flask with a yellow liquid, a flask with a red liquid, a flask with a purple liquid, and a flask with a green liquid.
