

ITS3

- WP3 (sensor characterization & qualification)
 - Starting monthly “hands-on” trainings
 - 1st one was last Friday (2/12) @ 9:30 am CERN time
 - Getting started with test beam analysis, learning the framework
 - Attended by Ezra & Preeti
 - Next steps:
 - Follow up in the WP3 meetings
 - Look through what data is still unanalyzed & what is interesting to look at

eIC R&D

- Information gathering
 - Working my way through some material from the previous carbon foam tests
 - Schedule another meeting with Eric this month
- Tool for 3d modeling/simulation
 - Fusion? Solidworks? Creo Parametric?
